# WELCOME TO OUR SHOW

The Edmonton Club of the Associated Canadian Travellers and Radio Station CFRN are happy to present their Tenth Annual "Search For Talent" in aid of the Crippled Children's Fund.

We are extremely happy in that we have met with success. However, we do feel this is due mainly because of your continued support and generosity. We have said on many occasions that the citizens of Northern Alberta are the "Stars" and had it not been for the fact you have shown us that you were behind our cause, we could not have carried on for so many years so successfully and due to your help, we are now in a position to comply with more deserving requests for assistance.

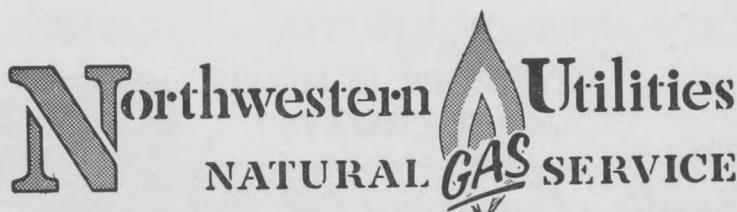

The Northern Alberta Crippled Children's Fund is happy to announce that from the 26 "Search For Talent" shows held during the past season, a net amount of \$18,784.15 has been realized.

Through the raising of this money, this organization has been able to render assistance to many more unfortunate children, where through lack of funds the child would go without medical aid. To date we have assisted over 400 patients. Our efforts have met with success, as you would agree, were you able to see the joy and happiness that has come to homes where crippled children have been given a chance to live a normal life. Your continued support of our project will open the door to a brighter future for more of our young citizens in years to come. The entire project bears the approval and support of the highly respected Orthopaedic Surgeons of Alberta.

Our special thanks goes to Radio Station CFRN as they make available to us, free of charge, the broadcast time and technical facilities necessary for this series.

## About Crippled Children

The A.C.T. Crippled Children's Organization is now going into their 10th year of operation and the fellows are most grateful for the wonderful support which they have enjoyed from the public during that time.

The boys are depending on "You" to talk up our project so that all parents who may have a child needing medical aid, but due to the lack of funds, is going without treatment. Our boys endeavor to spread the good news about their efforts and just how we operate.

The preliminary application is submitted to the executive of A.C.T. and they consider the application and applicant from every angle. If the request is justified and one to come under our scheme, the case is then submitted to our medical advisory board for consideration. This board, which consists of several orthopaedic surgeons in Edmonton under the chairmanship of Dr. G. L. Wilson, make their recommendations. In this way, over 400 needy crippled children have benefitted, many of whom are leading an active, useful life today and will become wage earners tomorrow.

# "Crippled Children

This little five year old girl is enjoying a wheel chair supplied by our Organization, following a series of operations and while we spent \$2,000.00 on her, unfortunately her type of disease was one that could not be conquered.

This picture shows some of our little patients in a local hospital where they are being treated for various disabilities. Again we wish to thank the public for their great support to our cause, as the continued generosity has enabled the Crippled Children's Fund to consider any crippled child and where through lack of funds the child would go without medical aid, the A.C.T. have made it possible for the necessary treatment prescribed by their physicians.

These two little girls are looking so happy since their stay in a local hospital while they underwent surgery which the A.C.T. took care of. The little girl on the left cost the Fund \$1,667.00, and the other child was also assisted by your giving.

We were called upon to assist this little 8-year-old boy who was severely burned. Our outlay for this child was over \$1800.00 but the happy look on his face indicates he was well on the way to complete recovery. When this photo was taken the boy was just leaving for his home near Coronation, Alberta.

All individual contestants are eligible to compete for the CFRN Scholarship which is awarded to the performer who is judged to have the most outstanding natural talent combined with ability and desire to advance. Mr. Rice takes a personal interest in the talent discovered on the Search for Talent Shows, and the good work accomplished by the A.C.T. Northern Alberta Crippled Children's Fund.

## BETTY MUNN

Winner of the CFRN Scholarship to the Banff School of Fine Arts in 1956—had no previous musical training prior to her participation in the A.C.T. Search For Talent Shows. Betty completed Grade 12 at Ponoka in June, 1956, and greatly enjoyed her six-week course at Banff in July and August. Her teacher at Banff—Dr. E. Vinci—gave her every encouragement to continue with voice training. Now residing in Edmonton, Betty is studying singing, piano and theory, and hopes someday to attain an operatic career. She feels that her appearances on Search For Talent and her studies at Banff have given her a great deal more self-confidence and initiative to continue her studies.
